If we really went to the moon in 1969, why haven't we been back since 1972?

In 1969 we had computers weaker than a Tamagotchi, suits held together with duct tape...

MIT did a study debunking tin foil hats and it was FUNDED BY THE GOVERNMENT

Every time someone brings up tin foil hats, some redditor links the MIT study...

AGI Hype dom-agi

We are 18 months from AGI and nobody is acting like it. Why?

I have been reading every major paper that came out in the last 6 months...

Our entire legal team just got replaced by an AI pipeline

Throwaway for obvious reasons. I am a mid-level PM at a Fortune 500...

Tech Humor dom-tech

Google mass-fired 12,000 people then posted a job for Chief Happiness Officer

I genuinely thought this was satire when someone on my team Slacked it...

Apple announced a product that already exists and called it revolutionary

I sat through the entire WWDC keynote and need someone to explain...
